“ Sorry for your loss...and our loss! Bernie was a treasured affiliate of ours at the Goetz Farm Radio Network and then Brownfield. A call from Bernie...whether it was to ask about some network issue or seeking help with his computer...was always a fun experience. I even had the honor to be a guest on-air with him on occasion. Rest in Peace Bernie...we are all better for knowing you.

“ I had the privilege of meeting and working with Bernie for a short time during a stint with WISS and WAUH. While I received a lot of excellent advice from everyone I worked with there, Bernie was certainly special. I've met a lot of great people in the industry, but you'd be hard pressed to find a man with the level of passion and true dedication that Bernie had. I'll also remember him for his excellent knowledge in meteorology, his "double meat, double cheese" subs from Subway, and how involved he was within the community. A true icon. Wishing all the best to the family and friends who were closest with him.

“ I remember us at the studio. Bernie gave us an interview. Bob couldn't believe Bernie was playing our songs on the air. He ran outside to the car to turn on the radio. He came back to the studio. He said yup, the song's on the radio. We used to visit him at times.

“ I didn't meet Bernie in person until April of last year, but we had been sharing news and emails for years. I actually did a story on his longevity in radio at one point. He was proud of that and rightly so. I hope I can be as sharp as he was if I reach my eighties. It was a pleasure working with him over the past year. He will be missed.

Though I never worked with Bernie at WISS, he aired my syndicated DairyLine program for many years there. I helped start WISS in 1972 and left in 1975 but always considered WISS and Berlin a very important and wonderful part of my life. I loved to visit Bernie whenever I got back there and he always welcomed me and had to put me on the air, no matter what time of day it was. I will miss seeing him as I know many will. Thank you Bernie for the memories. Lee Mielke Everson, Washington

I enjoyed working with Bernie over the years, mostly by phone and email. The 1st time I met him he insisted I play a few polkas on the concertina over the air! We had fun discussing the weather (which he knew a lot about). Thanks Bernie! The radio industry lost a legend!
